

Accounting Project Management

What Do We Bring To The Table? Results

\$200/hr, \$300/hr, \$500/hr and more...

Hourly bill rates for many accounting firms and national consulting firms in the post Sarbanes-Oxley world are staggering. When specialized expertise and guidance are needed, the price for these services can be justified.

Many accounting projects and work streams, however, don't require special expertise; just a good plan, skilled resources, and a commitment and shared ownership to get the job done.

With proven performance on both large and small engagements ranging from 650,000 hours to 150 hours, Callaway works with clients to strike the right balance between the use of financial experts and the use of experienced accounting consultants.

We can deliver similar results for you. In fact, if we are at the table to discuss accounting project needs, 7 out of 10 times we walk away with the business. Why? Callaway Partners delivers quantifiable results, on time and on budget.

Whether you're a Fortune 500 company or one hoping to get there, call today and let our staff of professionals head you down the road to success.
